

Anders Eyre

WEB DEVELOPER

Profile

My career focus is on programming and web development. Through my course i have created and implemented landing pages and submission forms with HTML and CSS to more advanced projects such Interactive games and responsive web pages using JavaScript, Flexbox and Handlebars.js. Additionally I have a working knowledge of Git/GitHub and the UNIX command language Bash. My goal is to develop these skills into flexible situations such as websites, emails and other digital communication platforms.
